

Pike River Wines

EXTRA TASTY FACT:
The Pike River winemaker Eric Semmler has been named Australian Winemaker of the Year.

WHO ARE WE?

Andrew and Bronny Caire started producing exceptional and rare varietal wines in 2018 by combining the talents of the best organic grape grower they knew, with an award-winning wine maker from their home region in the Riverland.

Their venture began as a tourism venue when they purchased land near Lyrup and developed some accommodation in their historic riverfront woolshed. But soon, thanks to an abundance of local support they found themselves developing a sustainable space to showcase the best of the region's wine, food and Murray River environment. It's the triple threat!

Pike River Wines now has its cellar door within the Riverland Wine Centre—alongside 25 other wineries.

So, people can visit and taste a huge selection of Riverland flavours—all while overlooking the mighty Murray.

WHY YOU'LL LOVE OUR PRODUCE

The Pike River Wines label has always focused on quality and maintaining something 'a bit different to others'. The winemakers began with a Fiano, Shiraz, Chardonnay and Lagrein, and are now excited about the release of their Sparkling Montepulciano.

The beauty of the Riverland climate is that it can grow all types of grapes—so Pike River plans on continuing to experiment with new tastes, under the guidance of its expert winemakers and innovative growers.

The focus for Andrew and Bronny is to connect more people to Riverland wine growers and makers, while also bringing their visitors a feeling of happiness and escape from the everyday stresses of life.

The gorgeous space, brilliant tastes and wonderful people here are so impressive you'll leave with a warm heart and a new-found love for Riverland wine.
